12. Please provide additional suggestions/comments for the committee, work groups, statewide HIE projects, etc.:

- **I think we need to develop an overall workplan so we know more clearly where we're going overall.**
- **Thank you for all your coordination and effort!! Great job!**
- **Great job! It is important for us to get together and remember the BIG picture.**
- **1st day of info was great! Great information to consider – useful time.**
- **Clinical group will be helpful! Would have liked more members in the legislator panel.**
- **Focus for potential legislation – not clear yet, waiting for surveys and group meetings. How will the legislation get done? When?**
- **(Only attended day 1) This day was extremely rich in information. I've come to the conclusion that the more these committed people come together to discuss, the more common understanding we achieve! I would like to see us advocate for an adaption of MN eHealth system and to advocate for necessary legislature to achieve.**
