Community Memorial Hospital (CMH) is a 25 bed hospital and swing bed facility located in Turtle Lake, North Dakota. The hospital is equipped with emergency room, physical therapy capabilities, cardiac rehabilitation, lab, radiology, CT, home care and hospice, adult day care and respiratory care.

Located in this beautiful, quiet, rural community of ours, we offer safe, worry-free living in a supportive, Christian atmosphere. CMH is proud to offer this important resource as an alternative to nursing homes. This is our hospital with alternative living in our hometown and we would like to see our community and the area communities use it. We give lots of love and excellent care!

Services:

Community Memorial Hospital provides the following services directly:

- Emergency Room (Trauma V Certified)
- Acute Care
- Physical Therapy
- Cardiac Rehabilitation
- Dietary Consultations
- Lab
- Digital Radiology

- CT Scans
- Nuclear Medicine
- Avera eEmergency Site

Community Memorial Hospital provides the following services through contract or agreement:

Mammography services are offered through the Garrison Hospital or through Trinity Mobile Unit from Minot, ND.

North Dakota Critical Access Hospitals

History:

Community Memorial Hospital was established through the efforts of the Turtle Lake Hospital Association in 1947. The actual construction was completed in 1952, with additions built in 1963 and 1969.

The original mission of the association is the same today, that is, a commitment to excellence of services in a person-centered environment that reflects regard and respect for the total good of the patient and all human life.

In January of 1987, Community Memorial became affiliated with St. Alexius Medical Center in Bismarck. St. Alexius provides medical equipment, physical therapists, as well as management and administrative services.

In 1990, St. Alexius Medical Center signed a lease agreement for the operation of the hospital. The hospital association remains responsible for the upkeep of the building. This is done through fundraising activities.

In 2000 Community Memorial Hospital became a Critical Access Hospital. The 25 bed medical facility has become a vital asset to the communities it serves, with patient admissions having increased significantly in recent years. In October 2014, St. Alexius and Community Memorial Hospital merged with Catholic Health Initiatives.

The reason for these substantial increases is a strong community support. The local people want a professional medical facility close to home. In order for a rural hospital to survive, it has to be wanted, and it has to be supported by the community. The people of the Lake Region saw this need and this is why Community Memorial is alive today.

Recreation:

The Turtle Lake area is the heart of North Dakota's best hunting and fishing. Geese, ducks, pheasants, grouse, deer, walleye, bass, trout, perch, rare bird watching and thousands of wild flowers within two miles. Abundance of public land in area. Friendly and wholesome place to raise a family. Top notch school system that includes excellence in academics and sports. Enjoy the truly good things in life, move to Turtle Lake, ND.
