Project ECHO® Management of Opioid Use Disorder Clinic

“Opioid Withdrawal Management in the Ambulatory Setting”

To access this presentation, go to: https://razor.med.und.edu/cme/selfserve/web/online-courses

Presented by
Shawn Ryan, MD, MBA

Facilitator: Dave Schmitz, MD

Upon completion of this program, the learner will be able to:

1. Identify the five levels of withdrawal management
2. Recognize the features, onset, and duration of symptoms of opioid withdrawal
3. Recognize the challenges presented in withdrawal management in ambulatory setting

Why attend? Because you will...

- Participate in case-based clinical discussions focused on the treatment of opioid use disorder.
- Gain up-to-date knowledge of opioid use disorder treatment through brief didactic presentations on topics of interest to learners.
- Improve your confidence in managing patients with opioid use disorder.

For additional information contact: Julie Reiten at 701-777-4173 or julie.a.reiten@und.edu

Who should attend?

All members of the healthcare team to include, but not limited to: physicians, NPs, PAs, nurses, behavioral health providers, social workers, pharmacists, medication assisted treatment (MAT) prescribing providers, and prescribing providers interested in becoming MAT providers.
