

## OUR SERVICES

### Audit & Assurance

We work with you to provide independent assurance of your financial reports. Our team interacts with your organization throughout the year to address issues as they arise and to consult with you when reporting requirements are changing. We strive to add value through recommendations made to you regarding process, controls and efficiency.

### Business Valuation

We'll help you understand how future decisions affect growth and profitability while positioning you to make strategic, proactive decisions.

### Capital, Budgeting and Financing Strategy

We work with your finance team to provide debt capacity and financial forecasts, market demand analysis, budgeting assistance, new business line strategy and analyses, return on investment analysis and due diligence services for potential acquisitions.

### Cybersecurity

We offer the skillsets and experience to deliver the tools and resources needed to create a culture of security, including security assessments, security implementation services and expertise in incident response.

### Fraud & Forensic Advisory

We work closely with you to detect, investigate and prevent fraud. Our forensics team is specialized in technology forensics, eDiscovery management, and forensic accounting to help you uncover the truth and improve fraud prevention efforts in your organization.

### Litigation & Dispute Advisory

Our specialists draw upon expertise and experience in to provide the facts and support necessary to develop a solid strategy for court.

### Medicare/Medicaid Cost Reports and Reimbursement

First, with a deep understanding of your organization and how your current structure and processes impact third-party reimbursement, we explore opportunities to enhance reimbursement while preparing and/or reviewing your cost reports and other payer arrangements.

### Operational Strategy and Process Improvement

From strategic planning and departmental productivity, to restructuring, mergers and health care reform transformation, we work with you to navigate pressing challenges and embrace opportunities.

### Revenue Cycle

We work with you to improve patient experiences and identify where you can capture more revenue, stop leakages and streamline your process to ensure you're paid the maximum return for your services.

### Tax Consulting

Beyond filing taxes, we consult on a variety of issues including mergers and acquisitions, tax planning strategies, state and local tax issues, Internal Revenue Service (IRS) examinations and appeals, compensation and benefits issues, and entity structure to minimize tax exposures.

### Technology Consulting

By aligning people, processes and technology, operational performance is enhanced and costs are reduced. Services include data analytics and reporting, accounting solutions, information technology (IT) infrastructure and networking optimization, IT planning and assessments, and privacy and security compliance.
