

WHO WE ARE

Safe Kids Worldwide is a nonprofit organization working to help families and communities keep kids safe from injuries. Most people are surprised to learn preventable injuries are the #1 killer of kids in the U.S. Throughout the world, almost one child dies every minute and nearly every one of these tragedies is preventable. Losing one child is too many, and we don't want any parent to have to endure the loss of a child. We're calling on everyone to come together, to raise awareness, and to get involved. Saving lives is a decision we can all make every day.
