

Project ECHO[®] Management of Opioid Use Disorder Clinic

“ACEs and Addiction”

To access this presentation, go to:

<https://razor.med.und.edu/cme/selfserve/web/online-courses>

Presented by

Jeremy Carpenter, MD

Medical Director, BrightView Health, Fairfield, Ohio

Indra Arya, MD

Resident, Minot Center for Family Medicine Residency

Facilitator: David Schmitz, MD

Upon completion of this program, the learner will be able to:

1. Describe what the ACE Study is.
2. Identify how adverse childhood experiences (ACEs) relate to later substance use.
3. Describe the role of primary care teams in addressing opioid use disorder.

Who should attend?

All members of the healthcare team to include, but not limited to: physicians, NPs, PAs, nurses, behavioral health providers, social workers, pharmacists, medication assisted treatment (MAT) prescribing providers, and prescribing providers interested in becoming MAT providers.

Why attend? Because you will...

- Participate in case-based clinical discussions focused on the treatment of opioid use disorder.
- Gain up-to-date knowledge of opioid use disorder treatment through brief didactic presentations on topics of interest to learners.
- Improve your confidence in managing patients with opioid use disorder.
