

# Project ECHO<sup>®</sup>

## Management of Opioid Use Disorder

To access recorded teleECHO sessions, go to:

<https://med.und.edu/continuing-medical-education/>

Participating in teleECHO sessions, you will...

- Engage in case-based clinical discussions focused on the treatment of opioid use disorder.
- Gain up-to-date knowledge of evidenced-based opioid use disorder treatment through brief didactic presentations.
- Improve your confidence and competence in managing patients with opioid use disorder.
- Learn about available tools and resources to incorporate into your practice.

### Who should attend?

All members of the healthcare team to include, but not limited to: physicians, NPs, PAs, nurses, behavioral health providers, social workers, pharmacists, medication assisted treatment (MAT) prescribing providers, and prescribing providers interested in becoming MAT providers.
