

Project ECHO[®] Management of Opioid Use Disorder Clinic

“Medication Treatment for Opioid Use Disorder”

To access this presentation, go to:

<https://med.und.edu/continuing-medical-education/online-courses.cfm>

Presented by

Shawn Ryan, MD, President & CMO, BrightView Health, Cincinnati, Ohio

Amy Werremeyer, PharmD, BCPP

Facilitator: Dave Schmitz, MD

Upon completion of this program, the learner will be able to:

1. List medications used in opioid addiction treatment.
2. Describe when each medication used in treating opioid addiction should be used.
3. Identify ways to prevent overdoses.

Why attend? Because you will...

- Participate in case-based clinical discussions focused on the treatment of opioid use disorder.
- Gain up-to-date knowledge of opioid use disorder treatment through brief didactic presentations on topics of interest to learners.
- Improve your confidence in managing patients with opioid use disorder.

Who should attend?

All members of the healthcare team to include, but not limited to: physicians, NPs, PAs, nurses, behavioral health providers, social workers, pharmacists, medication assisted treatment (MAT) prescribing providers, and prescribing providers interested in becoming MAT providers.
