

Project ECHO[®] Management of Opioid Use Disorder Clinic

“Forms of MAT: Where do buprenorphine, methadone and naltrexone fit in?”

To access this presentation, go to:

<https://med.und.edu/continuing-medical-education/online-courses.cfm>

Presented by

Jeff Craven, MD, BrightView Health, Cincinnati, Ohio

Masum Mukit, MD, UND Center for Family Medicine, Minot

Facilitator: Lisa Faust, MD

Upon completion of this program, the learner will be able to:

1. List the FDA approved medications for MAT both AUD and OUD along with their receptor activity profiles and any restrictions on use based on treatment setting.
2. Explain the rationale for recommending the appropriate medication choice for special classes of patients (pregnancy/lactation, adolescents, chronic pain, legal constraints, polysubstance use D/O, cognitive level, motivational level).
3. Describe how to transition between medications if a change is requested/mandated.

Who should attend?

All members of the healthcare team to include, but not limited to: physicians, NPs, PAs, nurses, behavioral health providers, social workers, pharmacists, medication assisted treatment (MAT) prescribing providers, and prescribing providers interested in becoming MAT providers.

Why attend? Because you will...

- Participate in case-based clinical discussions focused on the treatment of opioid use disorder.
- Gain up-to-date knowledge of opioid use disorder treatment through brief didactic presentations on topics of interest to learners.
- Improve your confidence in managing patients with opioid use disorder.
