

Palliative Care Task Force Provider Education

Post It Notes Comments	Post It Notes Comments
Palliative care training to nursing and other health professionals, including doctors	Identify education opportunities
Ensure PC is incorporated into the FCN scope and standards	Scholarship programs for certification tests
Barrier is cost for palliative care training, scholarships or support for training	Increase education for HCPs and team
Education – Offer clinical experience with a palliative care provider	Develop and provide education to providers and other professionals
Create standardized education throughout ND	Education for the public
Education funding	Identify palliative care providers for preceptors
Access to palliative care education/resources throughout the state	Incorporate ELNEC curriculum into college programs/AGPCNP program
Ensure all nursing and social work programs in ND have palliative care content across the curriculum and not just as an add on	Develop network of certified palliative care providers and professionals
Help facilitate certifications for each member of palliative care team	Promote/mandate education in curriculum and continuing education for all professionals
Educate ED providers/hospitalist regarding having conversation with patient and family about types of care, prognosis, etc.	Determine what education providers need
More education to providers regarding the difference between hospice and palliative care	Educate providers on how to have open conversations with patients on goals of care
Work force	

Brainstorming

1. Standardize education
 - UND students – ELNEC
 - Need palliative care preceptors
2. Tele-mentoring PC to rural facilities
3. ECHO project – mentoring – case study resourcing by phone
4. Survey on ELNEC availability
 - Bring locally
 - Shorten?
 - Core elements?
5. Provider education
 - Define a standard and provide it
 - Partner with Rural Health
 - Focus on direct communication – hard communications
6. LTCA conference education
 - Regional and/or statewide CAH education
7. Community education to AARP, NDSU, senior center gatherings, churches, etc.
8. NDSU Gerontology conference
9. SIM labs for end of life, palliative care
10. Educate/work with hospitalists on transitioning care
11. Standardize ELNEC for ND
 - Rural
 - Community
 - Professional
 - Providers
 - 1 message with different depths/modules
 - Fast facts with it
